Profile

Computer Science & Engineering undergraduate at Dronacharya College of Engineering (2023–2027), specializing in applied Machine Learning, Retrieval-Augmented Generation, predictive modeling, and scalable FastAPI ML pipelines.

Selected systems

RAG-Based Document Q&A System

Semantic vector search and grounded generation pipeline using sentence-transformer embeddings, FAISS retrieval, reranking, LangChain, HuggingFace, and FastAPI. Sub-850ms retrieval, 75% reduction in hallucinated answers versus a vanilla baseline, and 100% source-chunk traceability.

Food Delivery Time Prediction Engine

Production-style ETA regression engine factoring Haversine distance, traffic, weather, and kitchen prep time. Compared Random Forest, XGBoost, and LightGBM and exposed real-time inference through FastAPI. 38% MAE improvement over a static baseline and 18ms lookup speed.

AI-Powered Analytics Dashboard

Zero-code CSV analytics application with automated null imputation, one-hot encoding, normalization, parallel classifier training, and interpretable charts. Reduced manual data-prep overhead by approximately 80% and trained three classifiers in parallel.

Technical stack

Languages: Python, Java, C++, SQL
ML / AI: PyTorch, Transformers, LangChain & RAG, scikit-learn, XGBoost, LightGBM, OpenCV, Keras, NLP

Data / shipping: Pandas, NumPy, Matplotlib, Seaborn, Plotly, FastAPI, REST, FAISS, Git, GitHub, Docker, Linux

Education

Dronacharya College of Engineering — B.Tech, Computer Science & Engineering · Aug 2023 – May 2027 · CGPA 7.0 / 10.0
Canterburry Bells School — Higher Secondary Education, C.B.S.E Board · Completed 2022 · 66%
Resonance Academy — 10th Matriculation, RBSE Board · Bharatpur, Rajasthan · 96%

Credentials & achievements

Deep Learning Specialization · Machine Learning Specialization · TensorFlow Developer Professional Certificate · Python for Data Science, AI & Development
LeetCode Top 25% globally — Rating 1,585 · Codeforces Pupil — Rating 1,126 · Codeforces Global Round 30 — placed 1,292 / 35,000
